SUMEX

STANFORD UNIVERSITY
MEDICAL EXPERIMENTAL COMPUTER RESOURCE

RR-00785

ANNUAL REPORT—YEAR 12

Submitted to

BIOMEDICAL RESEARCH TECHNOLOGY PROGRAM
NATIONAL INSTITUTES OF HEALTH

June 1, 1985

STANFORD UNIVERSITY SCHOOL OF MEDICINE
Edward H. Shortliffe, Principal Investigator
Edward A. Feigenbaum, Co-Principal Investigator

DEPARTMENT OF HEALTH AND HUMAN SERVICES
PUBLIC HEALTH SERVICE
NATIONAL INSTITUTES OF HEALTH

DIVISION OF RESEARCH RESOURCES
BIOMEDICAL RESEARCH TECHNOLOGY PROGRAM

ANNUAL PROGRESS REPORT
PART I., TITLE PAGE

1. PHS GRANT NUMBER: **5 P41 RR00785-12**

2. TITLE OF GRANT: **SUMEX**

   Stanford University Medical Experimental Computer Resource

3. NAME OF RECIPIENT INSTITUTION: **Stanford University**

4. HEALTH PROFESSIONAL SCHOOL: **School of Medicine**

5. REPORTING PERIOD:

   5a. FROM: **08-01-84**
   5b. TO: **07-31-85**

6. PRINCIPAL INVESTIGATOR:

   6a. NAME: **Edward H. Shortliffe, M.D., Ph.D.**
   6b. TITLE: **Associate Professor of Medicine and Computer Science**

   6c. SIGNATURE: Edward H. Shortliffe

7. DATE SIGNED: July 5, 1985

8. TELEPHONE: **415-497-6979**

Table of Contents

I. Title Page 1

II. Description of Program Activities 3

II.A. Scientific Subprojects 3
II.B. Books, Papers, and Abstracts 3
II.C. Resource Summary Table 3

III. Narrative Description 5

III.A. Summary of Research Progress 5
III.A.1. Executive Summary 5
III.A.2. Resource Goals and Definitions 10
III.A.2.1. What is Artificial Intelligence? 10
III.A.2.2. Resource Sharing 12
III.A.2.3. Significance to Biomedicine 13
III.A.2.4. Summary of Current Goals 16
III.A.3. Details of Technical Progress 18
III.A.3.1. Progress Highlights 18
III.A.3.2. Resource Equipment Details 21
III.A.3.3. Core System Development 29
III.A.3.4. Core AI Research 41
III.A.3.5. Training Activities 49
III.A.3.6. Resource Operations and Usage 52
III.A.4. Future Plans 66
III.B. Highlights 69
III.B.1. Scholarly Publications 70
III.B.2. The PROTEAN Project 71
III.B.3. Software Export 73
III.B.4. The MENTOR Project 74
III.B.5. Blackboard Model Research 75
III.C. Administrative Changes 77
III.D. Resource Management and Allocation 78
III.E. Dissemination of Resource Information 81
III.F. Suggestions and Comments 84

IV. Description of Scientific Subprojects 85

IV.A. Stanford Projects 86
IV.A.1. GUIDON/NEOMYCIN Project 87
IV.A.2. MOLGEN Project 95
IV.A.3. ONCOCIN Project 102
IV.A.4. PROTEAN Project 114
IV.A.5. RADIX Project 119
IV.B. National AIM Projects 128
IV.B.1. CADUCEUS Project 129
IV.B.2. CLIPR - Hierarchical Models of Human Cognition 135

IV.B.3. MENTOR Project 140
IV.B.4. Rutgers Research Resource 144
IV.B.5. SECS: Simulation & Evaluation of Chemical Synthesis 150
IV.B.6. SOLVER Project 157
IV.C. Pilot Stanford Projects 166
IV.C.1. CAMDA Project 167
IV.C.2. Protein Secondary Structure Project 175
IV.C.3. REFEREE Project 178
IV.C.4. Ultrasonic Imaging Project 184
IV.D. Pilot AIM Projects 190
IV.D.1. PATHFINDER Project 191
IV.D.2. RXDX Project 196
Appendix A. Stanford Knowledge Systems Laboratory 203
Appendix B. AIM Management Committee Membership 211
Appendix C. Scientific Subproject Abstracts 215
References 237
